Web Portfolio

I'm a multidisciplinary product designer and creative generalist, working in all phases of product design and creation in the fashion industry and now focusing on using my full stack web development and product design skills across more industries. I blend product design, interaction, visual design to deliver product solutions. I'm currently working as a freelance Web Designer on various projects.

EXPERIENCE

2020 – PRESENT
FREELANCE WEB DESIGNER
Currently working on creating business sites for artists and commercial sites for commerce and product presentation using all modern technology from React.js to SQL.
